

AALBORG UNIVERSITET

### Study board conclusions of the study programme evaluation report

Year: 2021  
Campus: Aalborg  
Semester: SPA10  
Date: 13 October 2021

This document represents the public version of the evaluation of the abovementioned programme and year and is based on responses from students (at the end of the last semester of the programme) to a questionnaire about their experiences with the contents of the programme, coherence, progression and study load, etc.

The conclusions from the study board (below) represents the board’s decision about the adjustments that should be based on the evaluation of the students. The conclusion can include information from semester and teaching evaluations, earlier study programme evaluations and other information from students, teachers, employer panel, etc. known by the study board.

The document also represents the study board’s response to graduates, students, teachers and other interested parties about the conclusions made based on the responses of the graduates.

### Summary of the graduate responses

### Conclusion of the study board

The study board has on its meeting on the above data decided that there is no need for changes in the curriculum or its implementation. The level of the program is assessed to be high, as well as quality and amount of supervision received. There is expressed a wish to have more specialized courses, however given the amount of students following the program and the available resources, together with the rules on specialisations, it is not possible to increase the amount of specialized courses. Such comment has not been received during last years assessments and this year there are 3 students that are filled in the questionnaire and therefore it is unclear how general this comment is.
