

**Evalueringsrapport fra semesterkoordinatorer på SUND's uddannelser**

Semesterkoordinators evalueringsrapport for MediS 3rd semester (Uddannelse og semester)
<p>Årstal: September 2019- January 2020 Semesterkoordinator/dato for udarbejdelse af rapport: Meg Duroux March 2020 Antal afholdte styrings-/semestergruppemøder på semestret: Evaluation at semester start Bilag vedhæftet: none (Referater fra semestergruppemøde skal kun vedhæftes, hvis de ikke tidligere er sendt til studienævn (studienævnssekretær). Semesterevaluering skal <u>ikke</u> vedhæftes.</p>
Semestret generelt (bemærkninger til forberedelse/opstart, studie-/læringsmiljø, studerendes arbejdsindsats, deltagelse i styrings-/semestergruppemøder og semesterevaluering, administration, fysiske rammer m.m.)
<p>General Summary of activities: Semester start in September 2019 with evaluation at semester start in Feb 2020. For those students working in companies and doing long projects the number of students at semester start was limited and there was a discussion about status seminar and the best way to conduct this and problems associated with finding projects and supervisors.</p> <p>A project call was made in the summer prior to vacation and again in August, very few people provided projects as most students had already a supervisor and a project planned. The time frame for finding a project seems to be a problem for the students as many are already thinking about where to do the project and who will be the supervisor as early as March in the 8th semester. WE need to address project options earlier.</p> <p>Many students had started projects as internships over the summer period and these projects were then registered after the summer and approved before going abroad. Delivery of reports and project exams for 9 th semester BM, MMA and TM no problem.</p> <p>MedIS 3rd semester start: Information about registering projects, role of supervisor, contact persons for external projects, and formalities for registering projects was presented. Discussion on group room for biomedicine students. Student semester representative chosen and a tentative date made for status seminar where the 8th semester could be invited was proposed end of March. Semester meeting evaluation and feedback at semester start Feb 2020</p> <p>Survey exact: Only 20 students responded where 8 were long and 13 were short projects No major points of concern on semester but it was mentioned that finding projects and supervisors for MMA had been difficult for some.</p>
Projektmodul (bemærkninger til forløb af gruppedannelse, forløb af projektgruppearbejde, projektvejledning, sammenhæng mellem projektgruppearbejde og kursusmoduler, statusseminar, eksamen m.m.)
<p>Kommentarer eller forslag til forbedringer af projektmodulet (til f.eks. vejledning, fysiske forhold, gruppedannelsesproces m.v.)? Only few replied on project module 13</p> <p><i>Comments:</i> <i>Poor supervision and supervisor not engaged or involved during project</i> <i>Reading room or introduction to AAU facilities when based in Copenhagen.</i> <i>Supervisor lacked competences to supervise the given project</i> <i>More project diversity needed</i></p>
Kursusmoduler (bemærkninger til kursusmodulers forløb – forelæsninger, caseundervisning, klinik ophold og kliniske øvelser, sammenhæng/progression i/mellem forløb, forberedelse/opgaveløsning/øvelser, eksamen m.m.)
<p>Skriv her (angiv navn(e) på modul(er)/aktivitet(er): No course modules were held as its was project</p>
Action points/planlagte tiltag

Action points:

To have an info meeting on the 8th semester by inviting students to status seminar on the 10th semester so students have a clearer idea about the process of finding a project and the type of projects offered and how to proceed.

Engagement of supervisors.
