

The venue – the CREATE campus building

The venue for the summer school is the 'CREATE' campus building, at Aalborg University, located in the heart of Aalborg and right on the harbour front.

The CREATE building is the Aalborg University city campus and is a spacious modern building housing several departments, including the Department of Planning <https://www.en.plan.aau.dk>, the host of summerschool. It contains all the necessary facilities, auditoriums and conferences rooms necessary for the symposium.

CREATE also consists of a large open hall in its center, an aula, with a glass front that overlooks the beautiful Aalborg waterfront and Limfjord. This area contains a canteen area where coffee breaks and lunch will be available.
