Members' mandate and commitment

The Study Environment Council is an advisory body to the Pro-rector for Education; by virtue of the authority delegated by the Rector (delegation of the Rector's authority within the area of education), and based on input and consultation with the council, the Pro-rector will make final decisions in cases processed by the council.

The other members of the council are obliged to provide technical and strategic advice, thereby enabling the Chair of the Study Environment Council to make decisions within the framework of these terms of reference. The members of the council and their superiors must, by means of declarations of delegation, function descriptions or other means, ensure that members have clear mandates. Furthermore, the council's agenda and tasks should be discussed in the entities represented by its members. Members are also obliged to contribute to the implementation of council decisions in the organisation.
