## DOCTORAL SCHOOL IN MEDICINE, BIOMEDICAL SCIENCE AND TECHNOLOGY

### UPCOMING EVENTS AND PHD COURSES

#### **New PhD program and program**

**leaders:** In 2025, a new PhD program in Primary Healthcare headed by Professor Janus Laust Thomsen will be launched. Associate Professor Peter Brønnum Nielsen is heading the Epidemiology and Biostatistics Program.

**PhD day:** The PhD day will take place on August 27 from 12.00 to 16.00. You will all get a direct invitation from AAU PhD and SUND event. Expect an exciting program with a special emphasis on Research and Innovation.

**PhD career course:** The PhD career course on August 20 will have presentations from several alumni with various career paths to get inspired and reflect about your career path.

**Science communication:** We will have another workshop on science communication.

### NEWS FROM THE DOCTORAL SCHOOL

**Named person:** The Faculty of Medicine has appointed Professor Ulrik Baandrup as Named Person. He is independent and works to ensure responsible conduct of research and to consult on data ownership. SUND employees and students can contact Ulrik Baandrup with questions relating to these issues. More to come at the AAU SUND homepage

**Mentor program:** We will launch the 2nd round of our mentor program here in 2025 - this provides you as a PhD student with the opportunity to get a PhD alumni as a mentor to support you during your PhD studies. [Read more at the AAU PhD career hub](#)

**Best wishes** from Prof P Madeleine, Director of the PhD study, Doctoral School in Medicine, Biomedical Science and Technology, Faculty of Medicine, Aalborg University.

### NORDOC/ORPHEUS

The Doctoral School will award travel grants to both the [Orpheus](#) and Nordoc conference for 2025.

Keep an eye out for information in your inbox.
